

PROBITION IN THE U.S.A.

During the campaign for the repeal of the 18th Amendment I was asked to speak in the 2nd Ward Church, (during the fall of 1934) in favor of the 18th Amendment, While sitting on the rostrum about five minutes before I was to speak, I felt my body warm up, it seemed under the spirit of inspiration and the impression was given me as plain as if I had heard voices say it that that this country would take a step backwards and repeal the 18th Amendment, that much of the former disgraces of the old saloons would return, That the God was displeased with our state and nation and that they would be chastened or rebucked by God.
